We have the pleasure of introducing

RSL100

Level sensor for black and fresh water tanks

- **Intelligent electronic sensor for continuous measuring of tank level (black and fresh waters).**
- **Piezometric system (hydrostatic pressure) with multi-standard output proportional to the level of the liquid.**
- **Can be coupled with most popular level meters (e.g. VDO N 02 230 611/612/625/626) or with sophisticated PLC's**
- **Single model for tanks of depth from 200 to 600mm. Other depths can be provided on request.**
- **Alarm output can be configured to signal full/empty condition**
- **Competitive and affordable cost**
- **10...30 Vdc power supply**

Technical specifications:

Model: RSL100

Technology: piezometric sensing, microprocessor-based

Output signal: 4...20 mA, 0...10V, 10...180Ω, 240...33Ω

Operating temperature: 0...+50°C

Case: plastic, suitable for marine use

Tank screw thread: 1¼ " (Ø 42 mm)

Max dimensions: 700 x 90 mm

Weight: less than 350 g

Power supply: 10...30 Vdc
